Hiking boots	1 pair	<i>Not required but highly recommended.</i> Need to be above the ankle bone, also known as high-top hiking boots. If you are buying hiking boots for this program, please make sure to wear them hiking for a few days before the program as they will need to be broken in.
Sleeping bag	1	Down or synthetic sleeping bags are best but other options will work. The bag must be rated to at least -5 C, the ideal range is -5 C to -12 C. Needs to be compact.
Sleeping pad	1	If inflatable, please check that your mat has no leaks before packing it. Participants can also use foam camping mats.

Headlamp	1	Flashlights are ok in a pinch but we highly recommend a water-resistant headlamp.
Extra batteries for headlamp	1 set	1 complete set of extra batteries for the headlamp. We recommend using energizer lithium batteries as they last far longer, work better in colder temperatures and have significantly less mass. We also recommend storing them in a small waterproof drybag or Ziploc.
Camera (optional)	1	It is recommended to have an extra battery.
Waterproof camera case (optional)	1	We recommend a Pelican case.
Watch	1	Waterproof recommended

A note on cotton

Cotton is not ideal for any outdoor environment. When cotton absorbs moisture, it gets heavy and no longer insulates, instead it draws heat away from the body. Other fibers such as wool and synthetics don't get as heavy and still have some insulating ability when wet.
